SKILLS

PROFICIENT:	Javascript, Node.js, Express, React, Redux, PostgreSQL, HTML, CSS, ngrok, semantic-ui, Travis-CI, Heroku
KNOWLEDGABLE:	Socket.IO, Mocha, Electron, React-Native, Oauth
ADDITIONAL SKILLS:	RESTFUL Web Design, Test Driven Development, Pair Programming, Git Workflow, Continuous Intergration, Agile Software Development, Technical Writing

PROJECTS

Jan. 2019   **Enki**
Desktop application enabling non-technical users to create their own mobile applications.

- Allows non-developers to build and customize React-Native mobile apps. Inspired by Squarespace.
- Uses Node file-system API for CRUD operations in a user's local machine.
- Users are able to export their React-Native apps to their own local machine.

Key Technologies: *Electron, React, React Native, Node.js, Redux, Semantic-UI*
Github Link: https://github.com/enkiappbuilder/Enki

Jan. 2019   **Work Buddy**
Slack application aimed at driving employee/user integration within the Slack workspace. Solo project built in 4 days.

- Aims to push more connections in a workspace.
- Users are randomly paired with another user in an opt-in channel.
- Aid administrators with the ability to organize on-boarding processes/events and receive feedback on the ongoing process.

Key Technologies: *Express, Node.js, Heroku, Slack API , Ngrok for local testing.*
Github Link: https://github.com/zhhjoseph/WorkBuddy

Jan. 2019   **Game-Hub**
Mock E-commerce platform for video games.

- Guests and logged in users are able to search and browse for games.
- Users are able to log in and checkout with cart functionality.
- Designed layout and front-end components with cart functionality. Added search capability.

Key Technologies: *Node.js, Express, React, Redux, PostgreSQL, Semantic UI*
Github Link: https://github.com/GraceShopperKJBS2019/Game_Hub

EXPERIENCE

Dec. 2012 to Sept. 2018   **HMS Productions** · Imports Coordinator
- Arranged one million dollars of cargo from international factories every month to our customers and warehouse.
- Communicated with overseas factories on routing procedures and problem shooting
- Organized work procedures with production team on new workflows for each new customer.
- Routed all domestic shipments from warehouse to customers.
- Maintained low duty costs of all imported goods.

EDUCATION

2019   **Fullstack Academy**
A 13-week software engineering immersive program on the full-stack Javascript NERD stack: Node.js, Express, React and Databases (PostgreSQL/Sequelize).

2011   **Stony Brook University**
Economics B.A.

Dean's List
